

Jeno Moskovits' Letter To The Military Management In Budapest

My father wrote this letter to the Military Archives Management in Budapest on 10th March 1943. It reads:

'To the Highly-respected Military Archives Management in Budapest.

The undersigned turns to the Highly-respected Management with the respectful request for issuing a certificate regarding my military service in the war, based on the data below.

My civilian profession is denominational principal-teacher. I'm currently requesting my community, which runs the school, to include the war period into my years of service as teacher. In order to achieve that, however, I need an official certificate about my military service. Taking into consideration the fact that the archives of the 12th army infantry regiment from Szatmar regarding the World War [I] got lost during the foreign occupation, I'm turning to the Highly-respected Management with my request. If the resolution of this request may need filling out of an official form, I'm respectfully asking you to send it to me. Until then I can provide you the following data:

Name: Jenő Moskovits. Place and date of birth: Királydáróc, Szatmar County, 1st May 1891. Enlisted on: 15th May 1915 in Eger into the reserve battalion of the 12th army infantry regiment, and I was sent to the front on 26th July 1915 with the 13th battalion-on-the-march. My fixed assignment on the front was: 12th army infantry regiment, 5th company. Until my injury on 25th May 1917 I was on the (Russian and Italian) front non-stop, and after my recovery I did my military services at the line communications (Gemonna, Italy) right until the end. I was discharged on 3rd December 1918 in Szatmar as reserve lieutenant.

In hope of fulfilling my request I remain yours truly Jenő Moskovits, principal-teacher.

Address: Marosvasarhely, Béla Király St. 3.'
