

School-Certificate Of Stella Kotoucova

This is the school certificate of my mom, Stella Kotoucova, from school year 1917/1918. My mom was born Senska in Mohelno in 1902. Although she did not go to university, she was a very educated woman in her day. After elementary school she attended a secondary school for women, which was a German school in Brno, where she learned subjects ranging from maths and Czech to cooking. After marrying my dad, she stayed at home, but she helped him with the company.
