

Aleksandar Mosaic's Grandmother

Photo of my grandmother Charlotte Lotte Neuwelt. Photo was taken in Vienna, 1930.

As a young boy I went with my grandfather and grandmother every summer on vacation. Summer vacation I spent two months with grandfather and grandmother around Vienna in the Alps in nice orderly places and that is how I acquired my affinity for nice and orderly surroundings. Later, this carried over to my life, but I will talk about that when I discuss my professional career, how that additional upbringing from Vienna influenced my career.
